

BENT SHANK&NUT TAPS
NOMURA TOOL WORKS CO.,LTD.

**A Commitment to the
Quality Solutions
Your Needs**

Nomura Technology and Service Start here for your global solutions

A global-minded company:

Nomura provides solutions finely-tuned to individual customers around the world. We not only create, but maintain optimal specifications beyond different TAP processing environments. Customer demands are diverse, and more flexible manufacturing systems are necessary. So our day-to-day research and development continues in this light. Unending pursuit of customer satisfaction in the global marketplace. That's what Nomura's technologies and services are all about.

Always in progress:

In today's market where products turn obsolete so soon so fast, demands are rising for more durable, more functional, yet more conservation-oriented TAPs. Nomura's lightweight and recyclable TAPs using materials difficult to machine are part of the examples pointing to this trend. In the ever changing global landscape and customer needs, Nomura stays proactive with our enhanced research and development body, learning to grow, changing to keep our services and technologies up to date.

Faithful to core values of manufacturing:

As a manufacturer of TAP products, Nomura embraces three core values, Quality, Cost and Efficiency - Making products of quality well above customers intent. Helping cost reduction well balanced with quality concerns. Prioritizing in-time product delivery for less deadline pressure on customers is a part of our devotion to make customers happier. Through best services and technologies, we want our TAPs touching the lives of billions of people around the globe. This is our goals and intentions... as always, as ever.
